

School rules

These school rules were devised in close co-operation with the class representatives and have been acknowledged by the student council:

- All students and staff should conform to the general rules of the school: this means that teachers and pupils conform to school procedures as stated below.
- We respect each other: we value and respect other people's cultures. We don't laugh at other students' mistakes. We don't tease or bully or use any verbal or physical violence. Everybody should feel comfortable and safe at school and online.
- We respect other people's property. We don't steal or damage another person's property. This counts for school bags, coats in the hall and bikes and scooters in the bicycle shed. We do not deface the school building or its surroundings with graffiti, nor cause any other damage to the school building.
- We ensure that the school building is kept clean and tidy. We don't throw litter on the floor or damage school property. Neither do we write on the walls, tables or chairs and we feel responsible to keep classrooms and the school building clean. Teams of pupils will help the janitors to keep the building clean during the day.
- We do not put other students' health in jeopardy. We keep to the school policy concerning alcohol and drugs in and around the school. We do not carry any dangerous weapons. We do not put another students' health in danger by misbehaviour.
- We live up to our agreements. Teachers are clear about homework and behaviour in class. Teachers set homework, tests and written tasks in advance. Students come to school well prepared and live up to any agreements made.
